AUTOMATIC BACK POCKET SETTER WITH COLD FOLDING GROUP VM02

FLEXIBILITY

EFFICIENCY

QUALITY

Vibemac model VM02, automatic programmable pocket setter machine with cold folding group, is the most efficient solution on the market.

High productivity combined with excellent quality are the strengths of this automatic machine. Its ease of use enables even non-expert workers to operate it without any effort.

The retractable inner clamp ensures high stitching quality across various fabrics. Additionally, not needing a pocket creasing machine saves space and energy, boosting productivity instantly. Custom pocket jigs can be made locally or shipped with sewing programs in a matter of days.

Both programming and adjustments can be managed directly through the machine's intuitive interface.

▷ NEW COLD FOLDING GROUP

It guarantees optimal results for all fabric types and pocket shapes, even in case of pockets with just 7/8 mm of excess material, ensuring a clean and precise finish inside the pocket

▷▷ SERVO MOTORS

Servo motors facilitate fast and precise movement of the fabric, maximizing accuracy and production

TECHNICAL SPECIFICATIONS

Working Area: 250 x 236 mm

Max Pocket Size: 250 x 236 mm

Productivity (regular medium-sized pocket): 140-150 trousers/hour

Max Sewing Speed: 2700 rpm

Power Supply: 230V mono phase

50/60 Hz, 3.0 kW

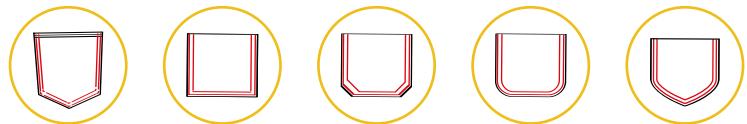

Air Consumption: 8 L/cycle (5.5 bar)

FEATURES

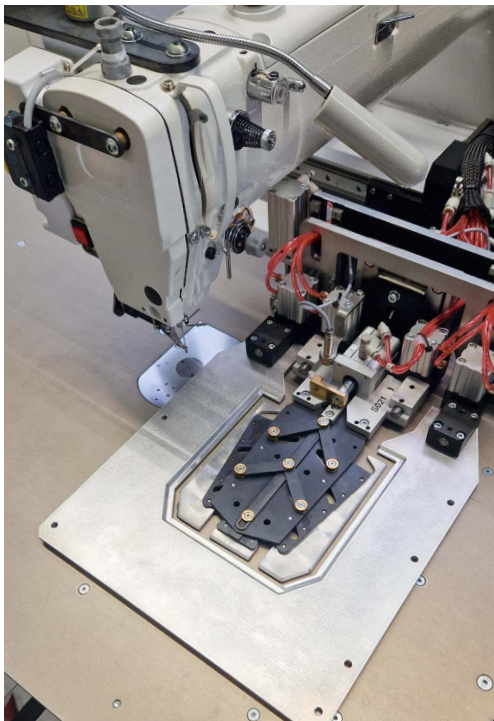

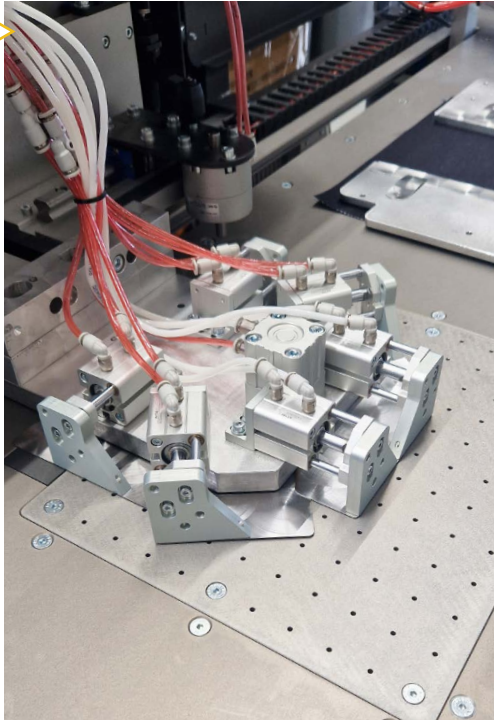

- › Height of the presser foot managed by a step motor, programmable in sewing cycle
- › The sewing head features a shuttle hook allowing for sewing with thick upper threads or multiple threads simultaneously
- › Quick change of jig managed by operator panel
- › 3 laser pointers for fast and precise aligning of the material
- › Worktop coated in SERIFLON (special surface treatment containing Teflon) which allows optimal sliding for all types of fabric
- › Compact stacker design for optimal performance even during high speed operations
- › The VM02 model can easily transform into the VM02-DH (double head) in just a few simple steps

OPTIONAL

- ✓ Looseness kit for allowance of the quarter panel
- ✓ Reinforcement under the quarter panel to strengthen the bartack area
- ✓ Protection barrier to ensure extra safety in working environment

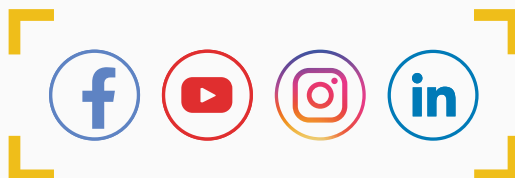

SUITABLE FOR MANY KIND OF POCKETS
