AUTOMATIC BELT LOOP SETTER

V4650EV9-UP3

QUALITY

FASHION STYLES

FAST

Vi.Be.Mac. has developed its own loopsetter unit keeping always the focus on the flexibility, creating a unit able to satisfy many different style requirements. The V4650EV9-UP3 can work on classic, semi classic, inserted, double loop and can perform a fully customizable bartack. In terms of quality, the unit is equipped with latest patented technologies for a perfect aligned loop, a V cut of the loop, a long last of the cutting system and the maximum comfort for the operator.

▷ DOUBLE COMPENSATORY PRESSER FOOT

Increased pressure on multiple layers reduces flexure and lowers the barycenter.

▷▷ LOOP ALIGNMENT SYSTEM

It ensures perfect loop positioning on fabric, especially for folded tails (Q loop/3D loop), enabling fast work without individual loop centering.

▷▷▷ CLEAN AND PRECISE CUT

New cutting system with single and clean cut with V or Straight shape, efficient running cost saving thanks to the long blade lasting

▷▷▷▷ REVOLVING SYSTEM FOR DEVICES POSITION

Devices can be set in 4 preset positions with a quick revolving system; downtime greatly reduced

TECHNICAL SPECIFICATIONS

Sewing Head: Vi.Be.Mac.

Max Sewing Head Speed: 2800 rpm

Max Sewing Machine Speed: 2600 rpm

No. of Stitches: 1 to 999 (programmable)

Needle Distance: 25 to 80 mm

Loop Width: 8 to 30 mm

Finished Loop: 32 to 85 mm

Sewing Area: 15 x 28 mm

Sewing Machine Motor:

Mitsubishi Juki XCG 554 20Y - 550 W

Control Box: XCG MFY 2005

Operating Air Pressure: 4.5 bar

Power Supply Voltage: 220 V 50/60 Hz

Air Consumption: 6 L/min

FEATURES

- ✓ 7" colored super fast touch screen panel
- ✓ Panasonic X&Y-axis drive motor
- ✓ Customizable bartack: to satisfy every fashion and style request, and adapting the bartack density for every different fabric
- ✓ CPU assures a much better software management, a better seam quality, easier adjustments and patterns, more precision, more customizable and more fashion options
