AUTOMATIC FLY PIECE UNIT

VM10

EFFICIENCY

FASHION

FLEXIBILITY

The VM10 is an automatic programmable unit which carries out “J stitch” on both left and right front fly panel, on jeans, casual trousers and workwear. The machine permits to create a customized “J” pattern with the maximum freedom of style, satisfying any fashion request, with no cost in terms of extra jigs. VM10 can achieve an incredible production rate, with no need of skilled operator.

▷ LEFT AND RIGHT FLY PIECE

With the new application on our reliable sewing head, you can now execute “J stitch” on both left and right panels for man and woman

▷▷ AVAILABLE WITH DCT (DOUBLE COLOUR TECHNOLOGY) PATENTED

A unique sewing head with the maximum level of flexibility in terms of style and design, it allows to stitch with 2 threads of 2 different colors / thickness in one single sewing cycle

▷▷▷ AIR SUCTION SYSTEM

Air system on the loading table for a fast and well assisted fabric positioning with granted quality output
