The Art & Science of Sewing

KX-781

Button Hole Sewing Machine

- It is applied for Button-holing on ordinary or knitted material with light to heavy weight.
- The button holing position can be easily adjusted, which enhances ease of operation.
- Automatic lubricating system with thread trimmer.
- Smooth operation contributes to high quality finish button holes and higher degree of efficiency.
- Vastly Used For Shirts, trousers, Knitted Jackets, T-shirts, Kurtas Etc.

MACHINE	NEEDLE	BUTTON HOLE LENGTH (mm)	NO. OF STITCH PER INCH	PRESSURE FOOT LIFT (mm)	MOTOR SPEED (RPM)	NW/GW (kg)	PACKING SIZE (mm)
KX- 781	DP X 5 #11-# 18	20~50	54~345	12	1800	68/73	690 X 330 X 805

KX-781E

Direct Drive Button Hole Sewing Machine

- It has same function of KX 781 and has maximum speed up to 3600 rpm.
- It is applied for button holing on ordinary or knitted material with light to heavy weight
- Adopts computerized servo motor quick to start and can save power up to 50%.
- Improved 550 watts servo motor to ensure strong penetration for heavy material even at low speed.
- Quick electromagnetic launch bar eliminates the noise of the clutch system, reduces fatigue of operator and increases the efficiency.

大盘感应
Plate sensor

混合油线
Mixed oil thread

机械锁感应
Mechanical lock sensor

伺服电机
Servo motor
